SANSKAR MOHARKAR

SOFTWARE DEVELOPER

Panvel, Navi Mumbai, Maharashtra | sanskarmoharkar511@gmail.com | +91 7219654229 | github.com/Sanskar3515F

SUMMARY

Software Developer with hands-on experience building full-stack mobile and web applications using Flutter, Firebase, and Next.js. Skilled in integrating third-party payment systems (Razorpay) and AI APIs into production-style applications, with a strong focus on clean architecture, responsive design, and delivering functional end-to-end products independently.

TECHNICAL SKILLS

Flutter & Dart	JavaScript	Git & GitHub
Firebase	Razorpay Integration	Responsive UI Design
Next.js	Anthropic Claude API	REST APIs

PROJECTS

FinCalc Pro – Indian Financial Calculator Suite **Next.js 14, JavaScript**

- Developed a comprehensive web application with 19 financial calculators tailored to Indian users (loans, taxes, investments, etc.).
- Built with Next.js 14 for fast, SEO-friendly performance and a clean, mobile-responsive interface.
- Created accompanying marketing assets to support product launch and audience growth on Instagram.

EduEarn – AI Student Helper & Notes Marketplace **Flutter, Gemini API**

- Designed a Flutter-based student learning platform concept combining AI-assisted quizzes, summaries, doubt solving, and a notes marketplace.
- Planned integrations for the Gemini API, authentication, database/storage, payments, gamification, and student progress tracking.

Quiz Management System

- Developed a quiz-oriented application concept with question management, scoring, and user-focused interfaces.
- Applied programming, database, and software engineering concepts to structure application modules.

EDUCATION

Diploma in Computer Engineering
Pillai HOC College of Engineering & Technology (PHCET) — 88.06%
